

Participant's Goals

Please tell us what you expect to gain or receive from attending this course.

The overall goals of the program are to enhance the ability of citizens to seek resolutions and be the driving forces in determining the future for their neighborhoods. As the CNLTP continues to evolve, the Office of Community Affairs strives to offer workshops that will help the program's participants achieve their goals for their respective neighborhoods. Please take time to list and submit your goals with your registration form.

How do you hope to accomplish positive change in your neighborhood?

What current concerns/issues are keeping you from moving forward?

What neighborhood project would you like to complete or initiate by the end of this training program?

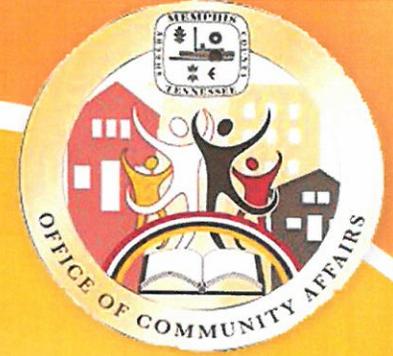

What are your personal goals for this program?

Certified Neighborhood Leader Training

Spring 2016

Stronger Leaders.
Stronger Neighborhoods.
Stronger MEMPHIS!

Mission

To build leadership in Memphis neighborhoods, while training and empowering residents to promote positive change.

What is the Certified Neighborhood Leader Training Program?

The Certified Neighborhood Leader Training Program is designed to help established and emerging neighborhood leaders create positive change and mobilize their neighborhoods. This **FREE** program will convene in monthly sessions from January until April 2016.

Memphis' most vital asset is its citizens; and city government recognizes that resident participation and input are essential to enhancing and sustaining the quality of life in neighborhoods. Therefore, it is critical for the City of Memphis to establish a vehicle to build upon and develop effective neighborhood leadership skills.

The objectives of the Certified Neighborhood Leader Training Program are:

1. To build upon and broaden neighborhood leaders' experience and understanding of neighborhoods.
2. To create innovative solutions for improving neighborhoods and enable emerging leaders to serve as advocates for their families and communities.
3. To encourage and enhance the ability of neighborhoods to seek constructive resolutions, and be the driving forces in determining the future of their communities.
4. To introduce participants to government, institutional, and business resources, while assisting and encouraging emerging neighborhood leaders in the establishment of effective networks.
