SUBJECT: Solid Waste Collection – Inclement Weather Schedule

Customers normally serviced by City of Memphis Solid Waste Management Department crews on Monday, March 3rd, will experience collection delays due to inclement weather. Service will resume Tuesday, March 4th, weather permitting. This will result in all customers receiving collection one (1) day later than scheduled, with services running through Saturday, March 8th.

Customers serviced by Republic Services will receive collection one (1) day later than scheduled all week, with services running through Saturday, March 8th. Collection of yard debris and trash outside the cart will be delayed as well.

Residents of mobile home communities serviced by Waste Connections will receive collection one (1) day later than scheduled all week, with services running through Saturday, March 8th.

When there is a weather disruption, we ask that customers place carts and bins out to the curb on their regular collection day and leave them at the curb until serviced. Collection crews will make every effort to resume normal collections as soon as weather permits.

(Visit our website at www.memphiswaste.org or <http://memphiswaste.memphistn.gov> for schedule updates.)
