Executive Biography

Anthony L. Milton
2701 Union Avenue Extended
Memphis, Tennessee 38112
Work: (901) 454-6216
Cell: (901) 412-4412
Email: synergytechgroup.com

My career represents 32 years experience in transportation, management and sales with UPS, Nolan's Audio/Visuals and Synergy Technologies Group, LLC. I see myself as and take pride in being a visionary who inspires those around me to aspire to do more. My ability to find value in every opportunity throughout my career, recognize changes and adapt to circumstances have served me well in business and in life.

I've managed to leverage my skills and training to consistently drive production, increase customer satisfaction, revitalize sales and most recently build a business from scratch.

Career Summary

Most recently I serve as principal and owner of Synergy Technologies Group, LLC. Our firm specializes in providing consulting, design, programming, sales and service in audio/visual integration, digital signage, tele-medicine, distance learning, paging, intercoms and low voltage cabling.

Our mission is to help people communicate through the use of technology. We help our clients achieve their organizational goals and compete more effectively.

Among our many accomplishments as Synergy Technologies Group, LLC we've had the honor to design, sell, install and/or support audio/visual systems for:

First Horizon Corporation
Baker, Donelson, Bearman, Caldwell and Berkowitz, PC
Oden Marketing
Federal Express Corporation
Volvo, Lexington, TN
Memphis City Schools
City of Memphis
Southwest Community College
Blue Mountain College, Blue Mountain, MS
Mississippi State University, Starkville, MS
Schmerhorn, Nashville, TN

Shelby County Government

As impressive as our list of clients are, what I take the most pride in are the ongoing relationships we still enjoy with all!

The keys to our success have been:

- Understanding the clients need and applications.
- Leveraging my team's combined talents and expertise into generating multiple revenue making opportunities.
- Product identification and positioning.
- Developing values and culture of success.

It's incumbent upon me when we work with clients to insure that the implementation process and the support after the sale does not interfere with the company's productivity and therefore their bottom line.

Prior to my position with Synergy Technologies Group, LLC, I was the Senior Sales Account Rep for Nolan's Audio Visuals, a career that spanned from 1987 to 2004.

My responsibilities included the design, sale and on occasion the installation of audio/video systems as well as advisor and recommender to the company. I identified potential opportunities, initiated relationships and developed overall strategies which increased our market share and our overall bottom line.

From 1975 to 1985, I worked for UPS in Chicago, IL. My tenure began as a part-time dock worker loading trailers and within a couple of months I was sent through UPS supervisor training school and promoted to supervisor where I supervised 8 employees and ran several successful inbound and outbound operations. These operations were generally classified as "hot spots" resulting in yet another promotion as customer service representative.

This was the first of its kind with UPS, initially three people were chosen to start the program and I was one of the three selected. My primary responsibilities were to act as liaison between the customer, our management staff and the employees.

I would keep all abreast of prices, tariffs and policy changes. I was also responsible for auditing the accounts for pricing and packaging discrepancies. I requested and was granted a transfer after 2 ½ years to Harvey, IL where I settled and ran a 22 man loading crew prior to my relocation to Memphis, TN in 1985.

Education

- | | |
|--|-------------|
| >Austin High School, Chicago, IL | 1970 - 1974 |

Dr. Brian Waldron

Director

Email: bwaldron@memphis.edu

Phone: 901-678-3283

Dr. Waldron serves multiple roles: Director of the Center for Partnerships in GIS (CPGIS), Assistant Professor within the Herff College of Engineering and Associate Director of the Ground Water Institute. His expertise is in GIS application and development as well as ground-water flow and contaminant transport. Dr. Waldron has been the Director of CPGIS since its inception in the summer of 2007. He has used GIS as a tool for mapping community data and conducting spatial analyses since 1991. For four years (2006-2010), he was an ESRI Authorized Training instructor in Introduction to ArcGIS. His primary interest with GIS is in developing innovative solutions for solving complex problems and pushing the envelope in using advanced GIS capabilities.
