INITIAL THAT YOU HAVE READ INFO

RESPONSIBLE PET OWNERSHIP

I agree to take my new pet to my veterinarian within 5 days of taking it home following sterilization surgery.

To insure the continued health of your new pet and any other pets you may have at home, this animal needs to be kept away from all other animals for **at least 2 weeks**. During this time you will need to be aware of any symptoms of illness in your new pet.

All vaccination booster shots, stitch removal, & any other services are your responsibility with your veterinarian.

All dogs over three (3) months of age must be vaccinated for rabies and have a license as proof of vaccination.

All cats over three (3) months of age must be vaccinated for rabies.

All dogs, when outside the home, must be on a leash or restrained in a fenced yard.

MAS will guarantee adoption following 15 days from initial adoption. Exchange or refund of adoption fees will be granted for untreatable illnesses (i.e. distemper) only with written diagnosis from your veterinarian. Refunds are sent via USPS and may take 4-6 weeks to arrive.

This adoption will be considered null/void if animal reclaimed by its owner or is declared medically or temperamentally unfit for adoption.

HEARTWORM TESTING All dogs should be on a heartworm preventative program. If you are adopting a dog over six (6) months of age from Memphis Animal Services, it will be tested for heartworms. If this dog is positive for heartworms, we require that it be treated. These treatments can be costly. If this dog is positive are you still interested in adopting this dog? _____. If yes, it will be at your expense at your veterinarian's facility. **To verify treatment of this dog, please have your veterinarian contact Memphis Animal Services Clinic at (901) 542-9359 or fax verification to (901) 362-6876 within one working day of adoption. Verification is needed before your new pet can have surgery.**

I have read and understand the above and will comply with all conditions in this contract.
