

**Grantee: Memphis, TN**

**Grant: B-10-MF-47-0001**

**April 1, 2012 thru June 30, 2012 Performance Report**

---

**Grant Number:**

B-10-MF-47-0001

**Obligation Date:****Award Date:**

11/10/2010

**Grantee Name:**

Memphis, TN

**Contract End Date:****Review by HUD:**

Reviewed and Approved

**Grant Amount:**

\$6,264,239.00

**Grant Status:**

Active

**QPR Contact:**

Harry J. Green, Sr.

**Estimated PI/RL Funds:****Total Budget:**

\$6,264,239.00

## Disasters:

**Declaration Number**

FEMA-1909-TN

## Narratives

**Disaster Damage:**

On May 1 and 2, 2010, West Tennessee experienced unprecedented rainfall which caused extensive flooding and damage throughout Memphis, Shelby County. As a result, President Obama declared Shelby County a Federal Disaster Area on May 4, 2010 (FEMA Declaration Number: FEMA-1909-DR-TN). Damage to public buildings and infrastructure was estimated at \$644,690. Damages to private property was estimated at \$1,660,334.

Damage to public buildings and infrastructure was reported throughout Memphis, Shelby County. The City of Memphis Traffic Engineer Sign Shop sustained significant damage; the Police Services Indoor and Outdoor Firing Ranges sustained moderate damage and the Memphis Zoo Administration Building, North Frayser and Cunningham Community Centers sustained minimal equipment and facility damage.

**Areas Affected by the Disaster**

1 Over 300 reports of street flooding were received between May 1 and 2, 2011. Sections of several main thoroughfares had to be temporarily closed. In downtown Memphis, the City's Gayoso Pumping Station failed and flooding occurred in City Hall.

2 About 104 residential properties were reported to have experienced significant flooding.

3 Numerous lakes located in subdivisions over Memphis flooded causing dams and levees to overflow onto nearby streets and into some homes. FEMA has instituted its Phase I buy-out program which, as of early February 2011, has received 97 applications for assistance from homeowners reporting flood damages.

**Recovery Needs:**

The torrential rainfall from the May storms, exacerbated Memphis's problems with storm-water run-off. The City is currently working with Shelby County government to up-date the Hazard Mitigation Plan that list and establishes priorities for hazard mitigation projects over the next five-year period.

The Memphis City Council directed the commission of a study of the Lick Creek Basin to determine feasible alternatives to the location of water detention systems and other solutions for flooding problems that have plagued mid-town Memphis for close to 50 years. The May 2010 storms focused the need to develop projects that would provide short and long-term disaster occurrences.

In response to the disaster recovery grant allocation, the Mayor's office, City Council, Divisions of Housing & Community Development, Public Works and Engineering have directed energies toward determining where unmet needs exist. Consideration was given to requests for assistance from homeowner associations where subdivisions experienced overflow of lakes and breaks in dams/levees from the storms.

The reported damages to homes were not as widespread as damages to the City's infrastructure. In assessing unmet needs, it was concluded that the assistance from FEMA was sufficient based upon the applications for assistance received to date from eligible homeowners whose homes were damaged by flooding from the May 2010 storms.

**Public Comment:**

There were no public comments.
