

Mid-South Mission of Mercy

The Mid-South Mission of Mercy (MidMOM) is a two-day free dental clinic for under-served people living in Memphis and the surrounding Mid-South area. The second annual MidMOM will be held on February 10-11, 2017 at Bellevue Baptist Church, 2000 Appling Road.

All dental services are provided free of charge by members of the Tennessee Dental Association, Mississippi Dental Association, and Arkansas Dental Association, assisted by a host of volunteers. MidMOM provides dental care for the relief of pain to under-served Mid-Southerners, many of whom are from working families who do not have access or cannot afford dental insurance. Our goal is to treat approximately 2,500 patients at our event and provide over \$1,500,000 in free dental care.

We hope that this project will become an annual event to serve those in need of dental care throughout Tennessee and the Mid-South. We would love for you to be part of this and appreciate your support to make the first Mid-South Mission of Mercy happen!
